

## FS Newsletter

25<sup>th</sup> November 2019

### FS1

We will be performing our nursery rhymes to parents/carers this week on Monday 25<sup>th</sup> and Thursday 28<sup>th</sup> at 2:15pm. The children are excited to show off their actions and singing voices! As part of our Circle Time 'Talent Show', the children will be given the opportunity to perform something of their choice throughout the week.

### Maths

In Maths, we will be comparing groups of objects, counting and matching the numerals and developing our understanding of 'more' and 'fewer.' We will work on grouping the same number of objects in different ways.

### Phonics

This week we will continue to explore instrumental sounds, using the noise meter and matching sounds to animals and story characters. We will be changing the words to Twinkle, twinkle little star, using instruments to accompany the new lyrics.

### FS2

#### Topic

Next week we will be continuing with our Superhero theme. The children are really enjoying the superhero books and activities. If you do have any Superhero books at home we would love you to bring them in so that we can read them.

#### Maths

In maths we are looking at parts of a whole. We will be breaking numbers apart and making number sentences with them. E.g. The whole is four. We can break it into 1 and 3 so  $1 + 3 = 4$ .

#### Phonics

In Phonics we will be learning the digraphs ch, th, and ng and the tricky words we and she. As usual we will be practising reading and writing sentences and captions with these words in.

Christmas production practise is now in full swing. If your child has a line to say please practise at home so that your child will feel really confident with it. Thank you to everyone who has done this already.

## **Events**

Friday 29<sup>th</sup> November is Christmas Preparation Day. Children can come in non-uniform with an optional Christmas Jumper theme and we ask if possible that they bring a donation for our tombola to be held in a few weeks.

Thank you for your support
