

Dear Parents/carers,

Another great week in LKS2. The children are now well established with the routines of the day and their independence is showing through.

This week the children in year 3 and 4 will be continuing to write a setting description which is connected to the class book that we are reading - 'The Wild Way Home'. We will then be presenting this work and completing some art work to go with it.

Reminders for this week:

- PE will be on **Monday and Tuesday**. Earrings need to be removed before school if children can't do this independently.
- Remember that the children should have a water bottle here in school which only contains water.
- Snacks for playtimes need to be healthy snacks such as fruit or fruit bars. No crisps or chocolate bars please.
- As usual, **homework** will be sent home on Google Classroom on **Fridays**. If there are any issues with handing in homework please let us know before the hand in day. The work needs to be completed online before the following **Thursday**. Please speak to your child's teacher if you are unable to access Google Classroom at home. Children who don't have time to complete this at home will have the opportunity to do it on Friday lunchtimes.
- Children also need to read on a regular basis at home and fill out the online reading records. Then submit it to your child's teacher to be checked. These will be checked on **Friday**.
- Over the next few weeks, **spelling** lists will be coming home, again via Google Classroom. There will be opportunity to practise these words at school and at home, as well as using Spelling Shed online.
- This week **Year 4** have a Stone Age workshop on **Wednesday**. The year 3s thoroughly enjoyed their Stone Age workshops and produced some fantastic work to be proud of.

Our learning includes:

English: Up levelling and publishing the setting descriptions. Moving onto Non-chronological report writing at the end of the week.

Reading: Key reading skills (inference, retrieval, prediction and summarising)

Maths: Addition and subtraction.

History: Research in to the Stone Age settlement of Skara Brae.

Science: Year 3: forces and magnets; Year 4: electricity

Kind regards

The LKS2 team
