

FS Newsletter

Week Commencing 7th November 2022

FS1

We are starting to prepare for our Nursery Rhyme Challenge. The children will bring home a booklet containing 5 Nursery Rhymes which they need to learn. We will then perform these to parents/carers in a few weeks' time.

Phonics

In phonics we will be reading our big book 'All Sorts of Art'. We will then all be given a piece of playdough and will make our own sculpture. We will use words such as poke, pinch, squish and will talk about what sounds those words start with. We will also sound out the words like robots squ-i-sh.

Topic

As well as our Nursery Rhyme Challenge we will think about Remembrance Day this week. The children will make a lovely poppy as we talk about the people we are remembering.

Maths

In maths we will be putting the prickles on our hedgehog templates. We will say one number for each prickle we place on. We will also be matching coloured objects and will be counting and comparing amounts.

Please see note below about Parent Consultations.

FS2

This week we have started singing our Christmas songs for our Christmas Play. Next week you will be receiving a dojo message letting you know which part your child has in the play and what costume they will need. If they are a narrator you will receive their line. Please practise this with them at home. Some of the other characters will also have a line but we will practise this with them at school first before sending it home in case we want to change any of them slightly.

Phonics

Next week we will be learning the tricky word 'her' and we will be recapping what we have learnt so far. We will be reading and writing captions with the letters we have learnt.

Topic and English

Next week we will be learning about Transport now and in the past. We will be looking at how transport is used and how it has changed over the years. We will be talking about how things have changed over time and how life was different in the past. We are hoping that the fire brigade will be bringing in a Fire engine for us to see on Thursday but this is subject to their availability.

Maths

We will be learning about the numbers four and five and the composition of them. E.g. $4 + 1 = 5$, $3 + 2 = 5$

RE

We will be learning more about how the Qur'an is a special book for Muslim people.

PSHE

Next week in PSHE we will continue to learn about how we like and dislike different things and how we are good at different things.

Events:

Don't forget it is our Parent consultations on Tuesday and Thursday next week. They are in person so arrive at the school office just before your appointment. Please note that appointments are only ten minutes long. If you feel there is more to discuss we can arrange another meeting at a separate time.
